## SKILLS

---

<b>Languages:</b>	Java, C++ , JavaScript, HTML , CSS
<b>Libraries &amp; Framework:</b>	ReactJs, Redux, Context API, Tailwind CSS
<b>Utilities and Platform:</b>	Git, GitHub, IntelliJ Idea , VS Code,Figma ,Canva

## PROJECTS

---

**E-Commerce Website (ReactJS)** [Github Demo](#)

- Developed a dynamic e-commerce application using ReactJS with API integration for fetching product data.
- Implemented React Context API for managing global state, including user authentication and cart functionality.
- Utilized React Router for smooth page navigation and Tailwind CSS for responsive UI design.

**Food Website (HTML, CSS, JavaScript)** [Github Demo](#)

- Designed and built a user-friendly interactive food website.
- Implemented responsive design principles for optimal viewing across devices.
- Optimized website performance and ensured cross-browser compatibility.

**Quote Generator (HTML, CSS, JavaScript)** [Github Demo](#)

- Designed a user-friendly interface for displaying and generating quotes.
- Implemented functionality to fetch random quotes using JavaScript and an external API.
- Integrated user interaction elements (e.g., buttons) to trigger quote generation.

## ACHEIVEMENTS

---

- **Finalist at MNIT Jaipur Hackathon (2023):** Our innovative prototype impressed judges, placing us among the top teams from 150+ participants.
- **Solved 135+ Question in Leetcode**
- **Led the coordination of the "Toggle Event" at ICI Fest (2023):** Managed a team of volunteers, oversaw logistics, marketing, and ensured a successful and engaging event.
