SUMMARY

Highly motivated Front-End Developer fresher proficient in HTML, CSS (including Tailwind CSS), JavaScript, and Git version control. Possessing a strong problem-solving mindset and a passion for crafting beautiful, user-centric web experiences. Eager to learn and contribute to a fast-paced development team. Actively developing data analysis skills to bridge the gap between user interaction and data-driven insights.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, SQL, JavaScript, C

Version Control: Git

Libraries & Tools: Tailwind CSS

PROJECTS

Food Website
Front End Project   *HTML, CSS, JavaScript*

- Designed and built a user-friendly interactive food website
- Implemented responsive design principles for optimal viewing across devices
- Optimized website performance and ensured cross-browser compatibility

Snake Leader
Front End Project   *HTML, CSS, JavaScript*

- Developed a dynamic and interactive snake game using web technologies
- Implemented user input handling for smooth snake movement
- Designed an engaging user interface with visual effects using CSS and JavaScript

Quote Generator
Front End Project   *HTML, CSS, JavaScript*

- Designed a user-friendly interface for displaying and generating quotes
- Implemented functionality to fetch random quotes using JavaScript and an external API
- Integrated user interaction elements (e.g., buttons) to trigger quote generation

EDUCATION

Swami Keshvanand Institute of Technology, Management & Gramothan   Jaipur, Rajasthan
Btech in Information Technology   *Nov 2022 – Present*
Grade: 9.6/10

SVGM Model School   Tijara, Rajasthan
High School   *Mar 2021 – June 2022*
Percentage: 94.20%

ACHEIVEMENTS

- **Finalist at MNIT Jaipur Hackathon (2023)**: Our innovative prototype impressed judges, placing us among the top teams from 150+ participants.

- **Led the coordination of the "Toggle Event" at ICI Fest (2023)**: Managed a team of volunteers, oversaw logistics, marketing, and ensured a successful and engaging event.
